

🚩 Flag 1 – Install Flutter SDK

Objective: Install the Flutter SDK.

Verify:

```
flutter --version
```

Screenshot:

- The results of the command

```
C:\WINDOWS\system32\cmd. x + v
Microsoft Windows [Version 10.0.26200.8875]
(c) Microsoft Corporation. All rights reserved.

C:\Users\johnf>flutter --version
Building flutter tool...
Running pub upgrade...
Resolving dependencies... (6.0s)
Downloading packages... (16.2s)
Got dependencies.
```

🚩 Flag 2 – Install Android Studio

Objective: Install Android Studio.

Screenshot:

- Android Studio installed
- SDK Manager opened (or Welcome screen)

🚩 Flag 3 – Install VS Code & Flutter Extension

Objective: Install VS Code and the Flutter (which also installs Dart) extension.

Screenshot:

- Flutter extension installed
- Dart extension installed (or shown as installed)

🚩 Flag 4 – Run Flutter Doctor

Objective: Check whether everything is configured correctly.

Run:

```
flutter doctor
```

Screenshot:

- flutter doctor results

```
PROBLEMS  DEBUG CONSOLE  TERMINAL  PORTS  OUTPUT
powershell + - [ ] [ ] ... [ ] [ ] X

PS C:\Users\johnf\OneDrive\Desktop\my_first_flutter_app> flutter doctor
Doctor summary (to see all details, run flutter doctor -v):
[✓] Flutter (Channel stable, 3.44.8, on Microsoft Windows [Version 10.0.26200.8875], locale en-PH)
[✓] Windows Version (Windows 11 or higher, 25H2, 2009)
[!] Android toolchain - develop for Android devices (Android SDK version 36.0.0)
    X cmdline-tools component is missing.
      Try installing or updating Android Studio.
      Alternatively, download the tools from https://developer.android.com/studio#command-line-tools-only and make
      sure to set the ANDROID_HOME environment variable.
      See https://developer.android.com/studio/command-line for more details.
    X Android license status unknown.
      Run `flutter doctor --android-licenses` to accept the SDK licenses.
      See https://flutter.dev/to/windows-android-setup for more details.
[✓] Chrome - develop for the web
[X] Visual Studio - develop Windows apps
    X Visual Studio not installed; this is necessary to develop Windows apps.
      Download at https://visualstudio.microsoft.com/downloads/.
      Please install the "Desktop development with C++" workload, including all of its default components
[✓] Connected device (4 available)
[✓] Network resources

! Doctor found issues in 2 categories.

Flag 5 – Build Your Virtual Device

Objective: Create your first Android Emulator (AVD).

Screenshot:

- Device Manager
- Your newly created virtual device
- Emulator successfully booted

🚩 Flag 6 – Forge Your Project

Objective: Create your first Flutter project.

Run:

```
flutter create my_first_flutter_app
```

Screenshot:

- Successful creation of project

Flag 9 – Find the Entry Point

Figure out where the default Flutter page comes from.

Screenshot:

- The location of the file where the default page is from (the one showing on the emulator)

```
C:\Users\johnf\Desktop>flutter create my_first_flutter_app
Creating project my_first_flutter_app...
Resolving dependencies in 'my_first_flutter_app'... (13.3s)
Downloading packages...
Got dependencies in 'my_first_flutter_app'.
Wrote 131 files.

All done!
You can find general documentation for Flutter at: https://docs.flutter.dev/
Detailed API documentation is available at: https://api.flutter.dev/
If you prefer video documentation, consider: https://www.youtube.com/c/flutterdev

In order to run your application, type:

$ cd my_first_flutter_app
$ flutter run

Your application code is in my_first_flutter_app\lib\main.dart.
```

Flag 10 – Claim Your App

Replace the default screen with:

- Full Name
- Course & Section
- "My First Flutter Application"
- Today's Date

Screenshot:

- Your updated content of the code
- The updated UI

Flag 11 – Personalize It

Research and implement at least **three** visual changes.

Examples:

- Change the background colour.
- Change the text colour.
- Centre the content.
- Increase font size.
- Add a border or rounded card.
- Change the font.
- Add an emoji or icon.

Screenshot:

- The code changed for personalizing
- The updated UI
